INCIDENT Weather Forecast

FORECAST NO: 4

NAME OF FIRE: Lane Fire

PREDICTION FOR: Thu-Thu night SHIFT

UNIT: Tehama Glenn

SHIFT DATE: June 28/29

SIGNED: Mike Smith *Mike Smith*

TIME AND DATE

FORECAST ISSUED: 2000 June 27, 2018

Incident Meteorologist

*** Fire Weather Watch from Friday Morning through Sunday ***

WEATHER DISCUSSION: A weak low pressure trough will move through northern California today bringing cooler temperatures, more moderate daytime humidity and nighttime recovery and a transition to more westerly winds in the afternoon. Some scattered clouds are likely but no rainfall is expected. Once this system moves through, Thursday night winds will transition to northerly in its wake. Breezy north to northeast winds are expected in the fire area by Friday morning. Continued breezy northerly winds and warming airmass will bring very warm daytime temperatures with minimum RH values Friday and Saturday dropping down into the teens. These critical fire weather conditions have prompted the issuance of a Fire Weather Watch for Friday morning through Sunday. The northerly breezes should drop off by mid morning Sunday but conditions will remain very warm and dry through the remainder of the weekend.

WEATHER FORECAST:

WEATHER: Scattered clouds.

TEMPERATURES: Maximum temperatures 78-85. Morning minimums 50 to 58.

HUMIDITY: Minimum afternoon humidity 24-30%. Morning RH recovery around 60-80%

20 FT WINDS:

RIDGETOP - Northeast to Southeast winds to 5 mph becoming west to northwest by 1000. Afternoon winds westerly 2-5 gusts to 8 mph.

SLOPE/VALLEY - Downslope to east winds to 5 mph becoming upslope mainly west 3-7 mph with occasional gusts to about 10 mph in the afternoon.

STABILITY/INVERSION: Moderately stable conditions through the day. Little or no smoke

OUTLOOK FOR Thursday Night: A few scattered clouds...otherwise fair skies. Minimum temperatures 52-60. Max RH recovery 50-70%. Ridge winds becoming light after sunset then northeast 2-5 mph by late evening. Some gusts to 10 mph by Friday morning. Slope winds mainly downslope 1-4 mph after sunset.

OUTLOOK FOR Friday: Sunny. Maximum temperatures 85-93. Minimum humidity 14-18%. Ridge winds northeast 2-5 mph in the morning becoming northwest after 1000 4-8 mph with occasional gusts to 15 mph in the afternoon. Slope winds downslope 1-4 mph though about 1000 then west to northwest 3-8 gusts to 12 mph.

EXTENDED Outlook for Saturday-Sunday: Fair skies. Highs 92 to near 100 Saturday and Sunday. Minimum RH values in the teens both days with poor to moderate overnight recovery. Winds northwest to northeast 5-15 mph Saturday through Saturday night becoming slope driven by mid day Sunday.

EXTRA INFORMATION: Sunrise Wednesday 5:42

Sunset Wednesday 8:42

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 004	TYPE OF FIRE: Wildfire
FIRE NAME: Lane	OPERATIONAL PERIOD: 06/28/18 0700-0700
DATE ISSUED: 06/27/18	TIME ISSUED: 19:00
UNIT: CA-TGU-006031	SIGNED: <i>Todd Hopkins</i> Typed/printed: Todd Hopkins (FBAN)

INPUTS

WEATHER SUMMARY: See attached weather summary in the Incident Weather Forecast

WEATHER: Scattered clouds.

TEMPERATURES: Maximum temperatures 78-85. Morning minimums 50 to 58.

HUMIDITY: Minimum afternoon humidity 24-30%. Morning RH recovery around 60-80%

20 FT WINDS:

RIDGETOP - Northeast to Southeast winds to 5 mph becoming west to northwest by 1000. Afternoon winds westerly 2-5 gusts to 8 mph.

SLOPE/VALLEY - Downslope to east winds to 5 mph becoming upslope mainly west 3-7 mph with occasional gusts to about 10 mph in the afternoon.

STABILITY/INVERSION: Moderately stable conditions through the day. Little or no smoke

OUTPUTS

FIRE BEHAVIOR

GENERAL:

The fire burned in a mixture of grass, brush and oaks with scattered Grey Pine stands. The grass component is fully cured, with a moderate fuel loading, mixed with the brush component which is still not fully cured. The fire spread was initially driven by high winds and low humidity with short to medium range spotting. Wind speeds are expected to significantly increase beginning Friday morning which will lead to increased rates of spread and farther spotting distances for any new ignitions. Any new ignitions for today will be fuel and topography driven.

Probability of Ignition: 77%
100 HRFM: Near 90th Percentile

FDFM: 4%
BI: 59

ERC: 72 (78 90th Percentile)
1000 HRFM: Near 90th Percentile

SPECIFIC: ***All Divisions: Rates of spread and Flame Lengths are for new fires***

<i>Rate of Spread (ft/min)</i>			<i>Flame Length (in feet)</i>	
Grass	Head	24-96	Head	5-28
	Flank	7-28	Flank	3-7
	Backing	2-8	Backing	1-4
Brush	Head	3-27	Head	2-6
	Flank	2-8	Flank	1-3
	Backing	>1-2	Backing	>1-2

Spotting Distance: 300 - 500 feet from ride top to drainages

AIR OPERATIONS:

Terrain and fuels may make it difficult to see resources working on Divisions.
Sunrise: 0542 Sunset: 2042

SAFETY

- New fires can grow rapidly in light flashy fuels.
- Exceptionally dry fuels warrant a high degree of caution.
- Don't become complacent! Identify your safety s and escape routes.

LANE HEALTH AND SAFETY MESSAGE

Maintain Situational Awareness!!!

INCIDENT: Lane Fire CA-TGU-006031

DATE: June 28, 2018 **TIME:** 0700-0700

Major Hazards & Risks: Hot dry Weather, Driving, Steep terrain.

Fire suppression repair: Monitor safe working distances. Utilize communication with heavy equipment operators (radio or hand signals). Maintain accountability of personnel at all times. Avoid working below dozers, watch for rolling material.

Mop Up: Conduct a thorough briefing for all personnel. Use all PPE, including eye protection. Maintain proper spacing. Be alert for stump holes. Evaluate unburned islands and stay alert.

Complacency: All PPE must be worn when working on the fire line. Mop up requires your situational awareness even without active fire. Unburned fuels can re-ignite suddenly and turn against you.

Fire Behavior: Fuels are receptive to fire spread. Be alert to changes in wind direction and expect changes in fire behavior. Flare-ups generally occur in deceptively light fuels. Plan for new starts.

Steep slopes/rolling material: Watch your footing while hiking in steep terrain. Be careful of loose rolling debris. Maintain Situational Awareness.

Personnel: Manage yourself and those around you for fatigue. As fatigue increases, injuries tend to increase also. Keep an eye on your crew and partner. Stay engaged and make smart decisions.

Driving: Slow Down! Drive defensively. Highway 36 is open to the public and Paynes Creek Loop has a speed limit of 25 mph. Drive with headlights and seatbelts on. Coordinate your movements on one-lane roads.

Review your ICS 206 and know what to do in the event of a line emergency.

Lookouts, Communication, Escape routes, Safety zones

Tailgate Safety

- **Accountability:** everyone checks in and everyone checks out. Supervisors know where their crews are at all times.
- **Communication:** everyone knows the comm plan.
- **Briefing:** everyone knows the plan and the contingency plan.
- **Safety gear:** everyone has the appropriate safety gear in good working condition.
- **LCES:** they are clear and made known to everyone.

Fire Suppression Repair

- Stay alert working around heavy equipment
- Utilize communication with heavy equipment operators (radio or hand signals)
- Monitor safe working distances.
- Avoid working below dozers, watch for rolling material.
- Maintain accountability of personnel.

LANE INCIDENT RISK ANALYSIS (ICS 215a)

DIV	HAZARDOUS ACTIONS/CONDITIONS	MITIGATIONS / WARNINGS / REMEDIES
ALL	STEEP TERRAIN / ROLLING DEBRIS	Watch your footing while hiking in steep terrain. Be careful of loose rolling debris. Maintain Situational Awareness.
ALL	FATIGUE/HEAT/DEHYDRATION	Be alert for signs of fatigue and take breaks as necessary. Monitor incoming resources for level of fatigue. Drink water before, during and after shifts, up to 1.5 gal. per shift. Be alert for signs of heat stress in yourself and others; use the buddy system. Eat small meals often and when possible Drink electrolyte drinks at a 3 water to 1 sport drink ratio.
ALL	LINE CONSTRUCTION	Conduct thorough briefing for all personnel (inside rear cover IRPG). Ensure LCES in place prior to engagement. Establish adequate safety zones. Use Downhill Line Checklist. Follow "Look Up, Look Down, Look Around" procedures. Utilize Risk Management Process. Reference the IRPG.
ALL	HAZARD TREES	Identify and isolate the area to provide for the safety of others. Flag and make proper notifications. Do not fall trees out of your certification level.
ALL	FIRE BEHAVIOR	Know your LCES and maintain Situational Awareness. Use experienced Look Outs. Adhere to the downhill line construction guidelines. Monitor weather for changes in the wind, temp, and RH when the inversion lifts. Expect rapid rates of spread with spotting, have a contingency plan with established decision points and safety zones.
ALL	DRIVING HAZARDS	Slow Down! Highway 36 remains open to the public. Paynes Creek Loop has speed limit of 25 mph. Drive defensively! Expect the unexpected around every curve. Drive with headlights and seatbelts on. Narrow roads with limited passing room. Coordinate your movements on one-lane roads. Use warning devices when operating near traffic.
ALL	AIRCRAFT OPERATIONS	Monitor air-to-ground frequency, they are your eyes in the sky. Use air-to-ground frequency to communicate with aircraft. Use clear, concise statements when directing aircraft. Only utilize aircraft to insert personnel on the line when necessary.
ALL	DOZER SAFETY	Watch for rolling material. Monitor safe working distances. Avoid working below Dozer. Utilize communication with the operator (radio or hand signals)
ALL	POWER LINES	Follow <i>Power Line Safety</i> guidelines in the IRPG. Extinguish all power poles that are on fire before the fall. Communicate power line hazards to supervisor and hazard flag accordingly. Flag area around downed power lines and deny access. Treat all downed power lines as energized.
ALL	POISON OAK	Avoid poison oak, wash as frequently as possible (use Technu). Review identification of poison oak. Change clothing as possible.
ALL	PERFORM TAIL GATE SAFETY MEETINGS	Everyone should be briefed on the conditions and circumstances regarding the fire and their assignments per the IRPG. Ensure all personnel have PPE, food, and water.

TRAINING SPECIALIST MESSAGE

Today, Thursday June 28 at 1600 hrs. is the deadline to close the training package for the Lane Incident

Regardless of home agency, in order to ensure incident documentation of any training assignment – You must close your assignment with Training.

Bring a completed individual performance rating

ICS 225/Taskbook/Qualifications card

**And Evaluator's Recommendation
to the exit interview.**

Remember: NO DOCUMENTATION - IT DIDN'T HAPPEN!

Thank you

Claudia Soiza - 949 632-7813

LANE INCIDENT – CATGU006031
Incident Trainee/Trainer Data Form

Training Specialist: Claudia Soiza 949.632.7813

- All Incident trainees, including those on Firefighting Modules at your earliest opportunity complete this form and see the Training Specialist.
- Prior to or as you process through DEMOB, remember to close your training package. To close your training package bring: 1) A performance rating from your trainer. (ICS 225)
2) Your task book that has as many entries as possible by your Trainer.

Trainee Data

Trainee Name: _____ ICS Trainee Position: _____

Request # (A,C,E, or O): _____ Agency Designator (MACS ID Ex. CA-ANF): _____

Ordered as Trainee? Y N _____ Regional Priority Trainee _____ Local Forest Trainee _____ IMT Trainee

Date Assigned: _____ Cell / Contact # While on Incident: _____

Training Records Mailed To: (Fire Chief, Training Officer):

Name: _____ Title _____

Cell / Contact While on Incident: _____

FIRE SUPPRESSION REPAIR & REHABILITATION PLAN

LANE INCIDENT: CA-TGU-006031

Fire Suppression Repair and Rehabilitation is the repair of damage caused directly from fire suppression activities. It is not the repair of areas damaged by the fire; just the damage caused by *fighting* the fire. We are also not responsible for making things better than they were before the fire.

Instructions for suppression repair during mop-up

Dozer operators and crews shall install waterbreaks (waterbars) in all fire lines (handlines and dozerlines) as well as secondary access roads while performing mop-up operations. *Dozer lines amongst the structures* shall have the berms pulled and waterbreaks installed with hand crews to minimize the impacts on residents.

Scattered trash shall be collected and deposited in trash piles. Trash piles shall be removed and placed at drop points either before or while hose lays are collected. Police your areas.

Inventory and Mapping

Suppression overhead and other personnel shall note rehabilitation needs and report them to the Situation Unit.

Objectives

- Install waterbreaks while crews and dozers are actively onsite on roads and trails damaged by fire suppression. Waterbreaks shall have proper angle and open throats to insure effective drainage.
- Repair damaged fences (remember, those portions damaged by suppression efforts, not by the fire itself).
- Restore berms and barriers on roads opened for suppression activities previously abandoned.
- Insure that drainage is provided at crossings, ditch drains etc.
- Report any damages or damages mitigated to the Fire Suppression Repair (Rehab) Unit leader.
- Complete all repair work prior to final demobilization.

Staging Areas/Safety Zones

- Remove debris deposited during suppression activities, including flagging and signs.
- Install cross drains.

Roads

- Clean culverts and drainage facilities plugged with soil and debris deposited during suppression activities; it is likely necessary to use hand tools versus dozer blades to accomplish this task.
- Re-establish cross drains and drainage if removed or made inoperable by suppression activities.
- Remove berms created during suppression activities.

Watercourses

- All slash, soil and debris deposited into watercourses during suppression activities shall be removed or stabilized.
- All loose soil must be pulled away from the watercourse and stabilized (graded smooth, local slash used for cover).

Archaeological or Historic Sites – Not Applicable

Waterbreak/Waterbar/Cross Drain spacing

Line or Road Gradient (%)	0-10%	11-25%	26-50%	>50%
Spacing	100'	100'	50'	50'

Waterbreaks, waterbars or cross drains shall be cut diagonally with a minimum depth of 6" into existing grade and overall minimum height of 18". Throats shall be open. Outlets shall be directed into non-erodible material.

Conflicts with Suppression Activities

Repair activities that unduly hamper access or other suppression actions shall be delayed. The location of needed repair actions shall be noted and relayed to the Plans Section. Don't compromise fire lines by spreading flammable material across them.

DEMOBILIZATION PLAN

Lane Fire

CA-TGU-006031

DEMOB PROCEDURES

- CHECK THE DEMOB LIST EACH MORNING. YOU CAN FIND THE DEMOB LIST THROUGH THE “QR” CODE ON THE I.A.P. COVER OR ON LISTS POSTED THROUGHOUT CAMP. **ONLY REPORT TO DEMOB AT YOUR SCHEDULED TIME.** EARLY ADMITTANCE WILL NOT BE ALLOWED.

- PICKUP A DEMOB CHECKOUT FORM (ICS-221) FROM THE DEMOB UNIT, THEN GO TO THE FOLLOWING UNITS TO OBTAIN THE NECESSARY SIGNATURES:

- ✓ SUPPLY UNIT
- ✓ COMMUNICATIONS UNIT
- ✓ GROUND SUPPORT/VEHICLE INSPECTION***
- ✓ DOCUMENTATION UNIT
- ✓ TIME UNIT
- ✓ TRAINING UNIT (IF APPLICABLE)
- ✓ ACCOMMODATIONS (IF APPLICABLE)

***VEHICLE INSPECTION:

- THE DEMOB UNIT WILL INFORM YOU IF THE VEHICLE NEEDS TO BE INSPECTED.
- YOU MUST HAVE THE ICS-221 DEMOB FORM WITH YOU AT VEHICLE INSPECTION.
- A VEHICLE INSPECTION TIME WILL BE PROVIDED WHEN YOU INITIALLY ARRIVE TO THE DEMOBILIZATION UNIT.
- **DO NOT REPORT FOR VEHICLE INSPECTION PRIOR TO YOUR APPOINTMENT**

RETURN THE COMPLETED ICS-221 FORM TO THE DEMOB UNIT AND TRAVEL HOME SAFE!

LANE FIRE – FINANCE MESSAGE FOR 6/28

Off-site Feeding

- Off-site feeding is no longer authorized, even if using CalCard.
- Crews and crew captains are to eat at Ishi Camp.
- All others are to eat at the MKU at the Lane Fire Base Camp.

Hired Equipment

- Vendors must turn in their contracts ASAP to the Time Unit
- Shift tickets must be completed daily by DIVS/OPBD and turned in to the Time Unit
- Shift ticket examples are included on the next page

Finance Section Relocating

Starting Saturday morning at 0800, the Finance Section, including the Time Unit, will be located at the Gaia Hotel, 4125 Riverside Place, Anderson. Hired equipment vendors must travel to the hotel to complete their payment documents. It is approximately a 20-minute drive from the Lane Base Camp to the Gaia Hotel.

Local Government

- Local Gov't resources after 1200 hours today (6-28-18), please closeout your F-42 with CAL FIRE IMT2 Finance Section Chief.

Bill Winter, Finance Section Chief, 805-903-3491

Dale Barnett, Deputy Finance Section Chief, 530-524-5623

LANE FIRE PUBLIC INFORMATION

Incident Information Line: 530-529-9233

MEDIA

California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot, or civil disturbance. Properly identified members of the news media should not be restricted from entering the locations specified within the code, even if the area presents a danger to them. Media members should be advised of the nature of possible danger. Members of the media do not have the right to access crime scenes or any area where their presence may interfere with incident operations, mitigation or evidence collection.

- The media may only access private property with the property owner's permission. Fire personnel cannot provide members of the media with authorization to enter private property.
- If approached and questioned by the media and/or the public, talk about your assignment or task at hand. If need be, direct the questioning party to the incident PIO.
- Do not speculate or give opinions
- There is no such thing as an "off the record" comment.

CAL FIRE SOCIAL MEDIA POLICY (Social Media 0691)

Social Media is increasingly being used by public agencies and the media as well as the public. This form of communication continues to grow rapidly in order to supply the public's desire for instant information gratification. All personnel assigned to a CAL FIRE incident will adhere to the CAL FIRE Social Media Policy. Further information about the CAL FIRE Social Media Policy can be obtained from the Information Officer. If you are uncertain, please ask. **Do not post:**

- Inappropriate information, pictures or videos
- Opinions regarding the incident or policy
- Endorsements of any kind

PICTURES AND VIDEO OF INCIDENT

We are in a new era of media. Media no longer means the news/broadcast industry but now refers to anyone that has the capability to shoot video and or photographs and post them onto social media in a matter of minutes. Unfortunately we have seen some instances of video or photographs that have depicted unsafe, unprofessional or embarrassing circumstances which are a serious breach of ethics. When this happens it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo or blog comment could have unwanted effects. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera can't be looking up, down and all around.

LOST AND FOUND

The Information staff will manage *Lost and Found* items for the incident. If you have lost an item, leave your contact information and what you have lost at the Information trailer. If you have found an item on the incident, bring the item to the Information trailer.

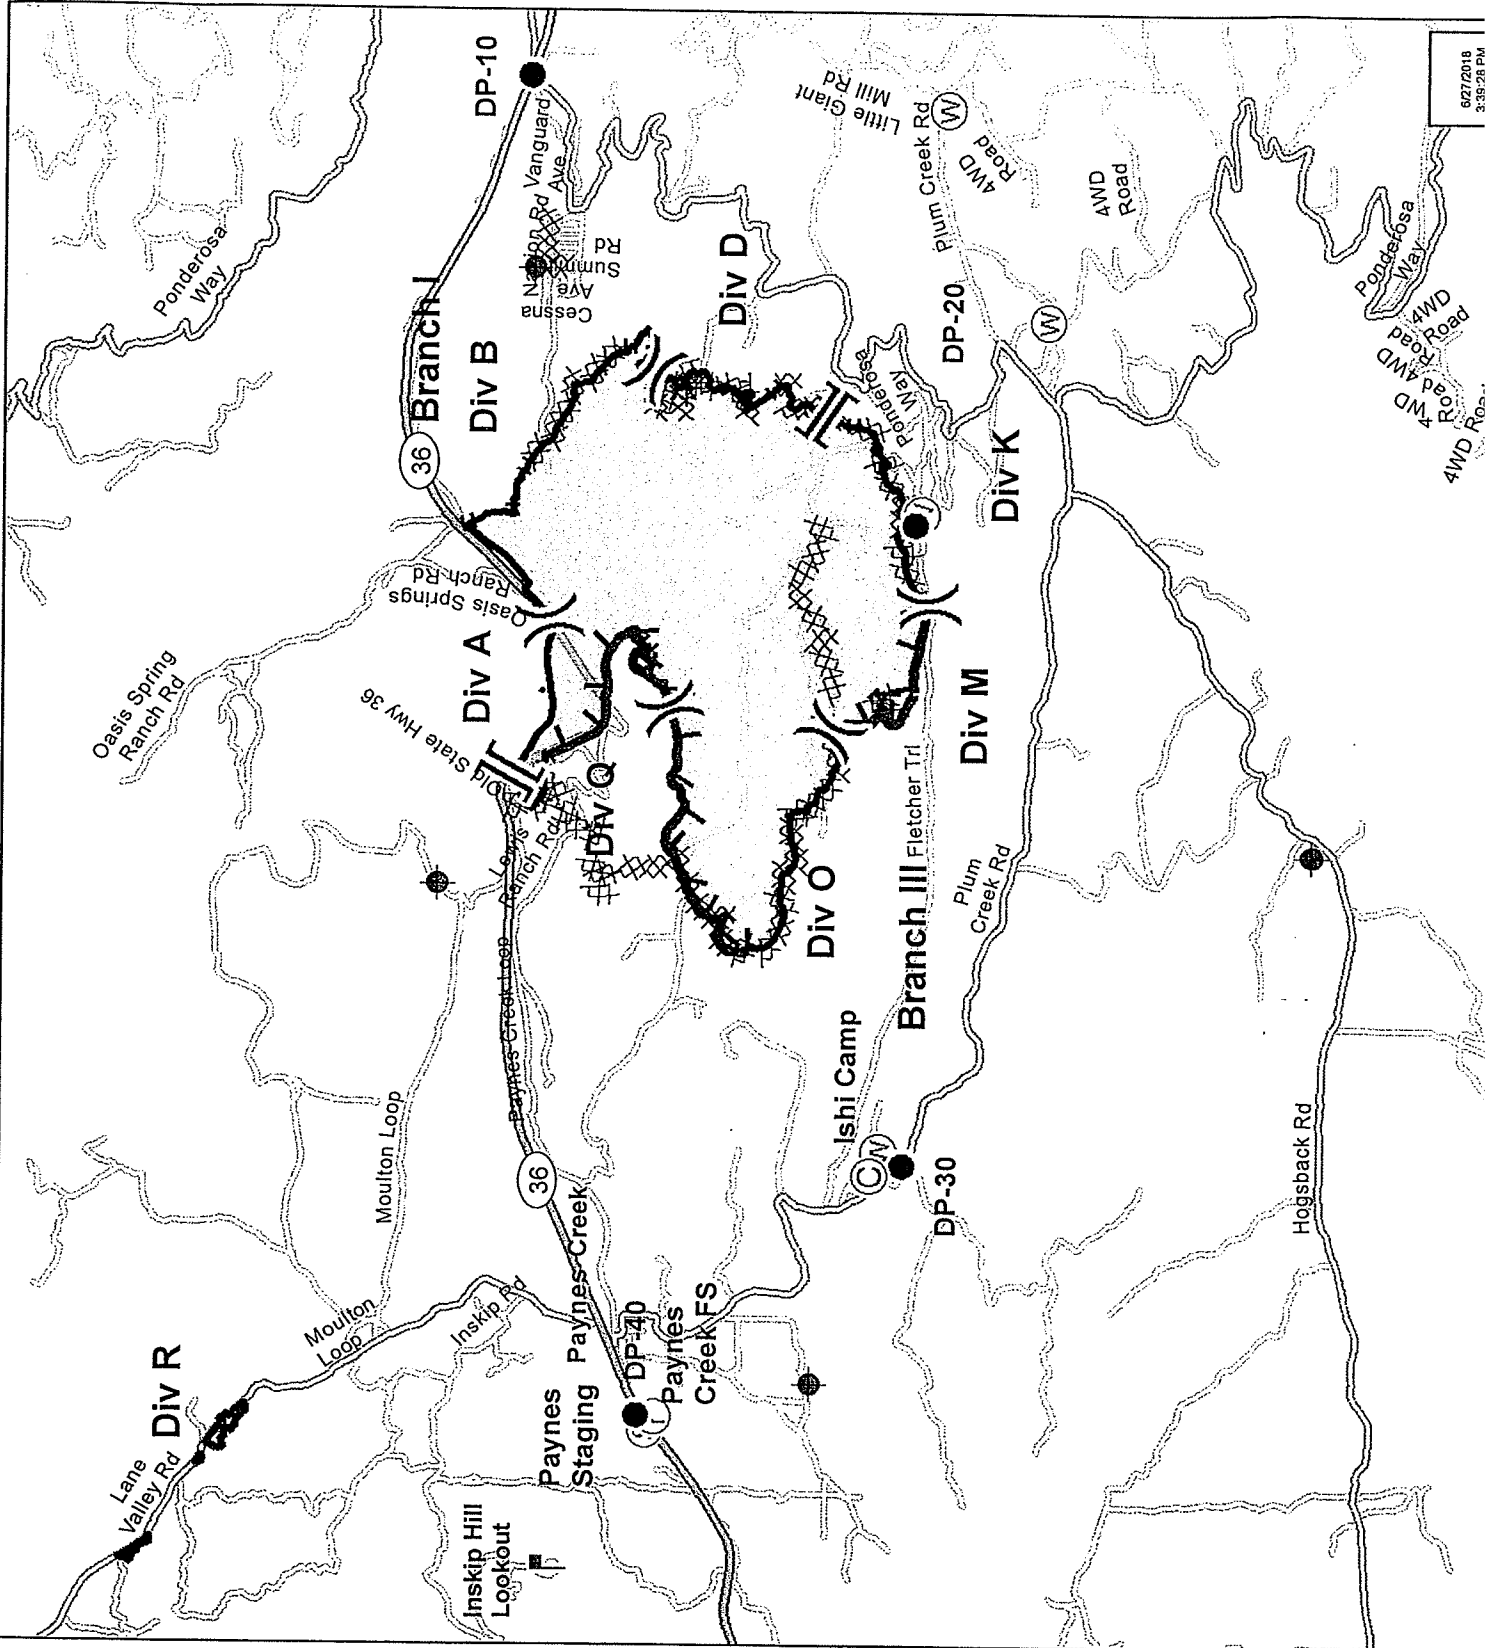

MAIL SERVICE

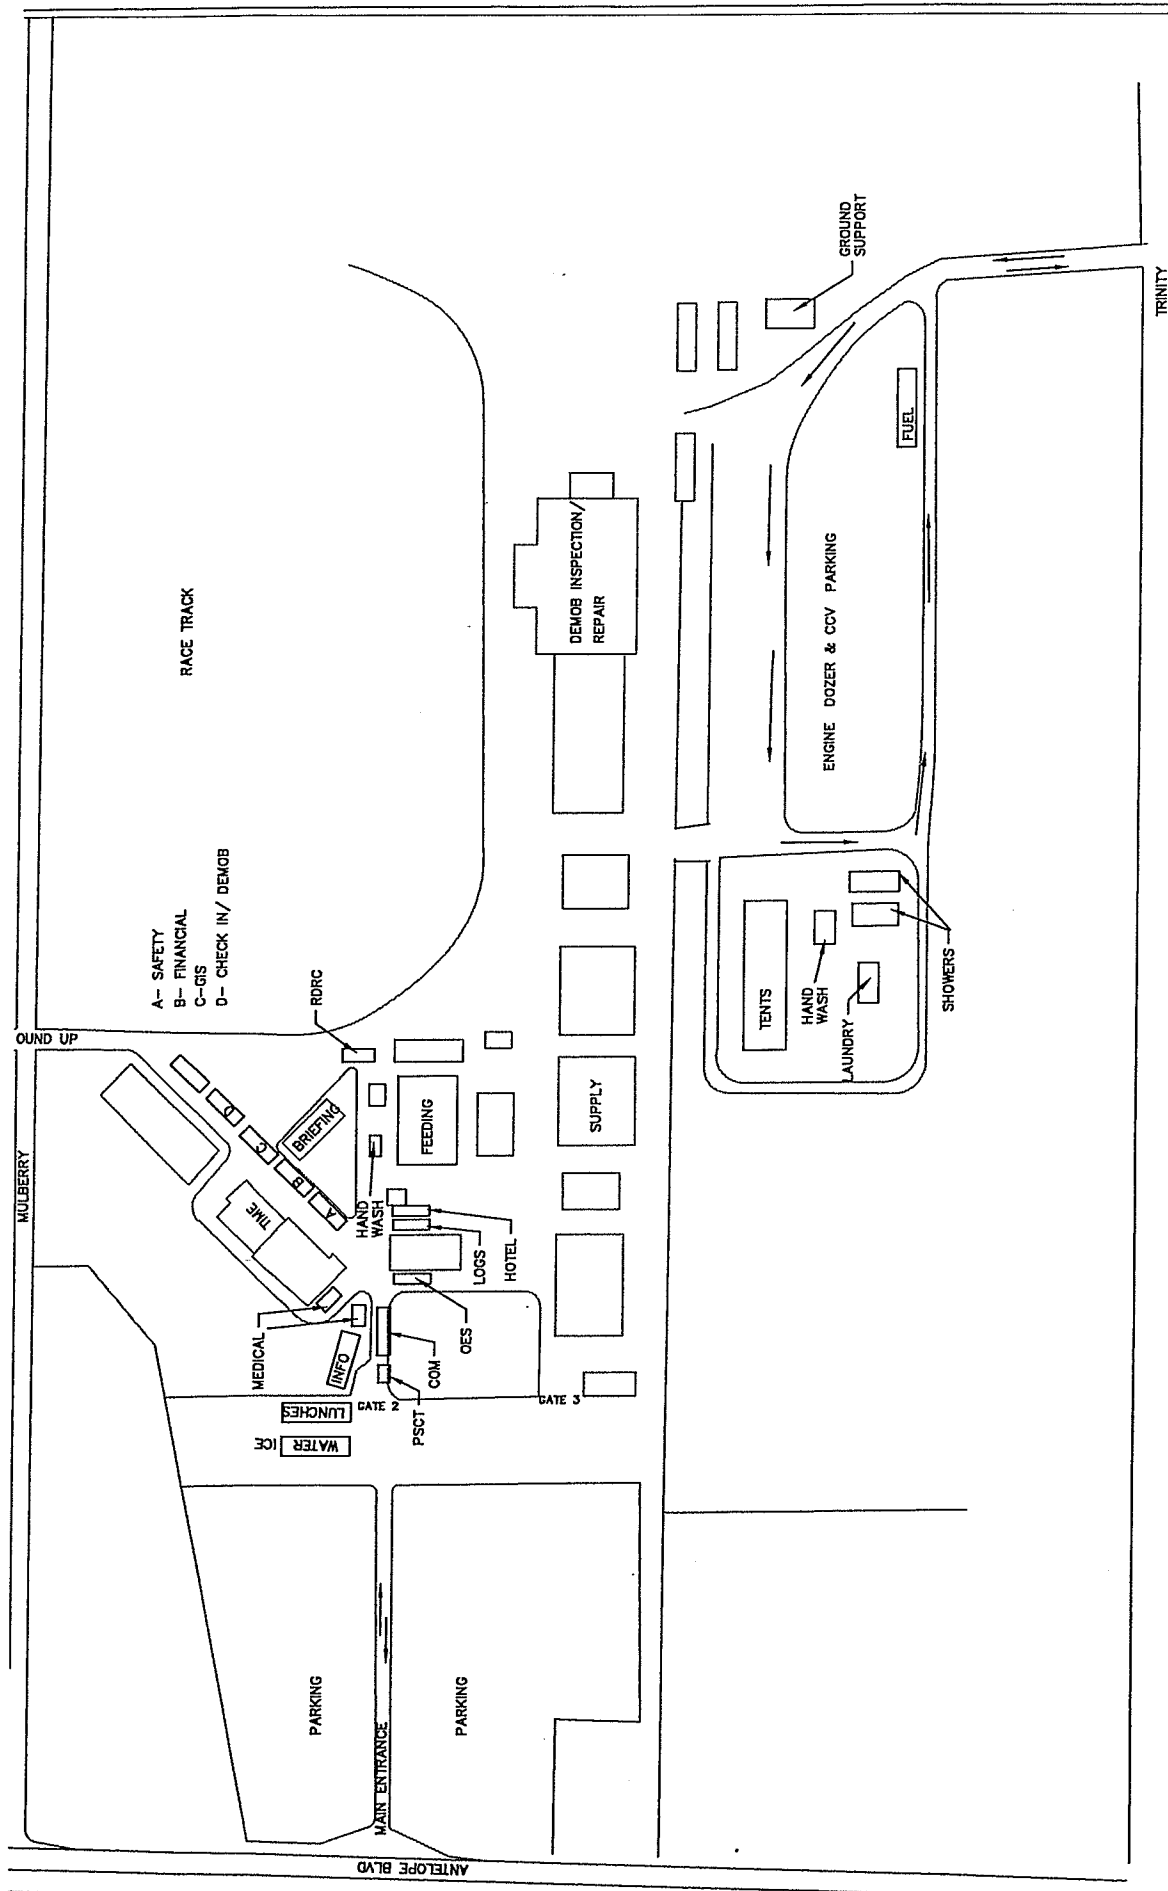

The Information staff will assist you in mail-22- nd receiving letters and packages.
